Dear Ed:

25X1A

I want to quickly and sincerely thank you for the very fine visit through [REDACTED] that you made possible for [REDACTED] and me on Friday, 19 February. The experience was both enjoyable and profitable and opened up many avenues of thought for me on the manner in which development work and research investigations can be managed more effectively.

25X1A

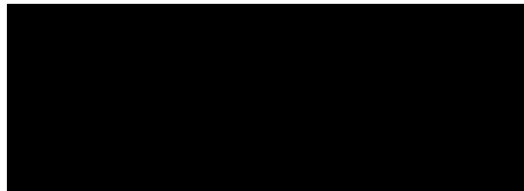

25X1A

I am looking forward to a call from you when you are in the Washington area and would like for you to visit Headquarters so we can continue our association.

25X1A

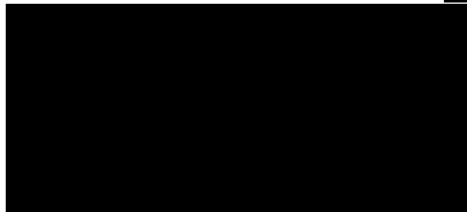

I mentioned to [REDACTED] that we would certainly like to hear from him or others in the research labs on the details of efforts which might be mutually beneficial to [REDACTED] and the Agency. Perhaps you can get together for a visit.

Sincerely,

25X1A
